After-School DMA Parent Options

Device Management Application (DMA) software is installed in students' PLDs to provide a safer digital learning environment, and to prevent misuse of the device. Parents/guardians can choose between these 3 options to suit their preferences for managing the PLDs **after school hours**.

	DEFAULT	**OPTION A** Modify DMA settings	**OPTION B** Disable DMA settings
FILTERING OF <u>WEB CONTENT</u>	MOE / School sets the level of filtering	Parent can apply additional filters	No content filtering
CONTROL OF <u>APPLICATIONS</u>	Parent cannot install additional applications	Parent can install additional applications*	Parent can install additional applications*
LIMITS TO <u>SCREEN TIME</u>	School sets limits for screen time	Parent can modify limits for screen time	No limits to screen time
MONITORING OF <u>CYBER ACTIVITIES</u>	Parent can monitor child's browser history	Parent can monitor child's browser history	No data is collected Parent cannot monitor child's use of the device through the DMA

💡 Opting for the Default DMA setting for after-school use is the best option for parents who prefer not to or do not feel ready to manage their child's device use on their own.

Parents can request to change their choice of DMA option through **https://go.gov.sg/bmssdma** Changes to the after-school DMA option will take effect at the end of every month upon receipt of request before the 15th of each month. An email confirmation will be sent to confirm the updated after-school DMA option once it has been activated.

Applications installed by parents/guardians and/or students after school hours will be disabled during school hours.
